50X1-HUM

1. During September 1952, USIA (Administration of Soviet Property in Austria) received instructions from the Central Administration of Soviet Property Abroad in Moscow to report immediately on the commercial relations existing between USIA and Intrac. These instructions were interpreted by senior USIA officials in Vienna as an attempt by Moscow to ascertain whether Intrac had been given "preferential treatment" by USIA in accordance with the orders issued by Moscow in the spring of 1952.
2. To assist in the drawing up of the required report, the senior Soviet accountant of USIA's Central Commercial Bureau prepared a statement of all deals between USIA and Intrac since the spring of 1952.
3. This statement showed the following eastern procurement deals in which the Central Commercial Bureau has assisted Intrac in delivering strategic materials to the satellite states, by acting as intermediary purchaser and reseller of the goods. (In these deals there are normally two contracts: under the first, Intrac sells to USIA the goods which it has procured for its eastern customer; under the second, USIA resells the goods to Intrac's eastern customer. The goods thus become USIA goods and are therefore exempt from Austrian export license formalities. For its services USIA usually charges Intrac a commission of 5 percent, or sometimes insists that Intrac should buy USIA textiles or other goods of which it has difficulty in disposing.

i. Aluminum to China

[redacted] Director-General Daderkin of the USIA Central Commercial Bureau [redacted] agreed to assist Intrac in the sale of 900 tons of 99.5 percent aluminum to the China National Export Import Corporation. The contract had already been drawn up and signed by Kessler as of October 1952. Intrac is selling the aluminum to USIA at 17,500 Austrian schillings per ton, while USIA is selling to the Chinese at 18,375 schillings per ton, giving USIA a profit of 787,500 schillings (5 percent).

j. Aluminum to Hungary

50X1-HUM

[redacted] Daderkin also agreed to the sale by Intrac of 200 tons of 99.5 percent aluminum to Metalimpex, Budapest. Intrac is selling the aluminum to USIA at 17,500 schillings per ton, while USIA is reselling at 17,937.50 per ton, giving USIA a profit of 87,500 schillings (2½ percent). In addition, Intrac is obligated to buy USIA textiles to a value of 122,500 schillings (3½ percent).

k. Aluminum to Czechoslovakia

50X1-HUM

[redacted] Kessler asked for USIA's assistance in the sale by Intrac of 500 tons of 99.5 percent aluminum to Czechoslovakia. This Daderkin refused, on the grounds that USIA was anxious to deliver aluminum itself to Czechoslovakia from its aluminum scrap stocks under the USIA/Czech barter agreement.

l. Red Tartar to Czechoslovakia

At the end of August 1952, Intrac applied for USIA's assistance in the sale of 11 tons of red tartar to Czechoslovakia. USIA has agreed to this deal, but no deliveries had as yet taken place as of late October 1952.

- m. In addition to the above eastern procurement deals Intrac occasionally sold goods to the east through USIA before the Moscow instructions were received in the spring of 1952. Three such deals were:

(1) Transformer Sheets to Hungary

50X1-HUM

[redacted] 47,525 tons of transformer sheets were sold to Metalimpex, Budapest. The latter was represented by Rosa Wolf, director of the Dr. Back metal firm, which belongs to Intrac.

(2) Chrome nickel steel to Hungary

[redacted] 51.987 tons of chrome nickel steel were sold to Metalimpex, Budapest.

50X1-HUM

(3) Haematite to Eastern Germany

Contracts dated 23 January 1952, for the sale of 2,000 tons of haematite to the D.D.R.

4. At the end of July 1952, Intrac applied for USIA support in the sale of 25 tons of 99.5 percent aluminum to Metalimpex, Budapest. USIA, however, rejected the deal as it was at that time itself negotiating with the Hungarians.
5. As indicated above, USIA frequently insists, as a condition of its support, that Intrac shall buy USIA goods of which USIA has difficulty in disposing.

USIA, concluded in May 1952, which Intrac sold through its firm, Panzer
of Taborstrasse, Vienna II.
